

DR. T. N. WARFIELD, of Breckenridge county is a candidate for Senator.

CAPT. A. JACK GROSS gobbled the U. S. Marshal plum last week and has returned home.

The appointment of U. S. Marshal for Kentucky turned out to be a very Gross affair after all.

JUDGE W. F. GREGORY has been solicited by numerous friends to run for Senator, but has not as yet consented to make the race. He would make an able Senator.

COL. W. H. YOST, of Greenville, is spoken of as a suitable man for Senatorial honors. He possesses superior abilities for the position, but if he had a warm competitor for the honors we fear he would not be able to run the race through, as he is so frail and delicate.

A NUMBER of the Democrats of Butler county have requested Mr. A. L. Morton to make the race for Senator. Mr. Morton was for a long time Circuit Clerk of this county, and was always a successful candidate, and if nominated, could no doubt make this race a success, and he would make an efficient legislator.

HON. W. D. COLEMAN is this week announced as a candidate for re-election to the Legislature. He is a sober, careful business man, a time-tried, unflinching Democrat; has a good legislative record and his candidacy is deserving the consideration of the Democratic voters in determining who shall be their standard bearer in the race.

MRS. SALLIE R. OGDEN of Owensboro was adjudged insane last week. She has long been engaged in a lawsuit with the brother of her deceased husband and it is thought the strain upon her mental faculties on account thereof has produced the insanity. The case was once tried in this court. Hon. Sam E. Hill presided as special judge. Mrs. Ogden will be taken to Hopkinsville for treatment.

It seems that nobody is hankering after the Senatorship from this district. There is a call from the Muhlenberg Democrats for Hon. Sam E. Hill to make the race. The Captain has a good legislative record, is a popular man and if he can be induced to make the race would make it a success. The Captain, however, is an applicant for U. S. Pension Agent, and if successful in that, will not consent to make the race. He might otherwise be induced to run if there was a general desire manifested by the Democrats of the district for him to do so.

THE Evansville Democrats won a splendid victory on the 6th, electing the entire city ticket for the first time since 1870. The Journal, the leading Republican paper of Southern Indiana, referring editorially to the result, says: "The Democratic city ticket was elected, every man on it, yesterday, by average majorities of over a thousand votes on the general ticket. The Democratic candidates for council were all elected, most of them by unexpectedly large majorities. When the latter are sworn in, the council will stand ten Democrats to two Republicans. This result is a surprise to everybody. Democrats as well as Republicans. The largeness of the majorities was entirely unexpected."

The Echo would like to know the reason there was not a candidate for the senate from this district. Is the office not worth having? Is no one going to offer for it? It is time the race was being made up, or at least discussed. We know that there will be a close vote in the district, but we think that we could name a few good Democrats who could lick any man the Republicans may bring out. We have heard Capt. Sam E. Hill's name mentioned in connection with the race by several good Democrats in this county, and believe he is the first choice of the Democracy of Muhlenberg county for the position, and that he can leave Muhlenberg with a good majority. Hurrah for Sam Hill.—Muhlenberg Echo.

Beck, Blackburn, Buck and Bogs. It seems that Mr. Beck is an entomologist and sought the Peruvian Mission in order to perfect himself in the science of Bugology. Peru is a great country for insects and is the place where the great Cocinical bug is found, out of which is made dyestuffs of the most valuable kind. A great company is being formed in the Blue Grass Country for the manufacture of fancy dye-stuffs. The headquarters of the company is to be at Midway, half way between Versailles and Lexington. Mr. Beck will forward the bugs and the Blue Grass Statesmen will see to the manufacture of the dye-stuffs, while Messrs. Phil. Thompson and Rhey Boyd will be the traveling agents for the introduction and sale of the coloring goods.

A. E. NEWMAN, Democratic candidate for the Legislature from Muhlenberg county, has withdrawn. This leaves R. Y. Thomas, Jr., of the Central City Argus, the only Democratic aspirant.

JOHN E. YOST, of Muhlenberg county, has taken charge of the C. O. & S. W. R. R. office at Memphis, Tenn. He is a young man fully worthy of the confidence reposed in him and will fill the position satisfactorily.

CAPT. SAM E. HILL, of Ohio county, is a candidate for the State Senate. He is an experienced legislator and an able one. It is to the great advantage of the State when such men consent to serve it.—Courier-Journal.

You are a little too previous. The captain has not consented yet to make the race, but all the balance you say concerning him is to the point.

HON. SAM E. HILL. Since writing a little editorial on the Senatorial contest, which will be found in another column, a call upon Capt. Hill to become a candidate has been handed us. The Echo has long since taken the ground embraced in the call, and is yet ready, willing and able to go its length for Capt. Hill if he is a candidate, provided there is no son of Muhlenberg who wants to offer for the position, which we don't believe now will be the case.—Muhlenberg Echo.

A Primary Election. At a meeting of the Democratic Committee of Ohio county, held at Hartford April 6th, 1885, the following resolutions were adopted, viz:

Resolved, That a primary election is hereby ordered to be held at the several voting precincts in the county, on Saturday the 16th day of May, 1885.

Resolved, That all persons who have heretofore voted the Democratic ticket, and all youths who intend to affiliate with the Democratic party, and who will support the nominee of said primary election, are entitled to vote, and no others.

Resolved, That said election be conducted as a regular election, and that the clerk of each precinct be required to return the poll-book on Monday next after the election, to the Secretary of the Democratic Committee, and that on the following day the Chairman and Secretary of the Committee shall compare the polls and declare the result, and the candidate receiving the highest number of voters shall be declared the nominee.

Resolved, That the following named officers be appointed to conduct the said primary election, to wit:

T. J. SMITH, Chm'n Com., Attest: C. Hardwick, Sec. Com.

A Call on Capt. S. E. Hill. Without your solicitation, consent or knowledge, but believing you to be the strongest Democrat in this district, and feeling that your services for us while Senator four years ago, demand some endorsement and recognition, we hereby earnestly request you to announce yourself as a Democratic candidate to represent the counties of Muhlenberg, Ohio and Butler in the next State Senate.

MANY DEMOCRATS of Muhlenberg.

A Call on A. L. Morton. We the undersigned citizens of Butler county of the 8th District of Ky., deeming the Hon. A. L. Morton, of Hartford a worthy man to represent us in the State Senate do, respectfully request him to announce himself a candidate for State Senate. Subject to the action of Democratic party.

Hyland F. Lyon, son of Gen. H. B. Lyon, of Eldysville, was killed on Sunday of last week by the accidental discharge of a shot gun in his own hands. He was nearly 21 years of age and was one of the most popular and promising young men in that vicinity.

At a negro church in Gordonsville Saturday night a young negro named Morrow shot another named Miller, seriously wounding him. Both were drunk and they quarreled over some trivial matter. Miller has some bad wounds in the breast and may die. Morrow has fled the country.

Judge B. L. D. Guffy, county Judge of Butler county, has filed suit against James D. Renter, Circuit Clerk of same county, for money paid by Guffy for said Renter a few years ago, when Renter was elected to the office he now holds. The case will be tried in the Circuit Court now in session.

The body of a colored boy was found in Christian county recently, which proved to be that of Wm. Bailey who had been missing since February 9th. The boy was subject to fits and it is supposed he took a fit while on his way to a school house in the vicinity and the weather being cold, froze to death.

Yesterday was a day of casualties, Willie Hulsev, son of Thomas Hulsev, while fooling with a pistol, accidentally shot himself in the left hand. Our friend, Dr. V. M. Taylor, has sold his new residence on Dutch street to Dr. C. A. Strickler for \$1,400, and will give possession next week. He will leave immediately for Texas and California with the view of selecting a location. The Doctor has been here for more than two years, during which time he made many friends who will give him up very reluctantly.—*Sauvebean*.

It is now unlawful in this State for any one to catch, kill or in any manner destroy any quail, partridge, etc., during the months of March, April, May, June, July, August and September, and any person found guilty is liable to a fine of \$3 for each offense. Also, it is the same law regarding the black, grey or fox squirrel, from the 1st of February to the 15th of June, and any person found guilty will be fined \$3 for each offense.

On Sunday evening of last week, an unknown man was shot and killed on the railroad near Lewisburg, by J. B. McMillan. It seems that a Mrs. Wingfield was out walking on the railroad and when near the man she was at-

tacked by him, who attempted to kill her. McMillan and two or three others started out to make him leave. When they approached him he made fight with the above result. The man was a tramp and his name is unknown. McMillan was tried and acquitted.

Monday afternoon, about half past one o'clock, Lillie, a sprightly fifteen years old daughter of Henry Fisher, colored, while attempting to dip water from the end of a jo-bait in the creek, at the rear of the colored Methodist church, lost her balance and fell into the water. Her father, who witnessed the occurrence from his dwelling close at hand ran down, plunged in, dived and brought her up, but the bank was so steep and slippery that he lost his footing and they both fell back into the water, the girl escaping from his grasp. Help soon arrived, but it was fully an hour before the body was recovered, when of course, life was extinct. She is spoken of by those who knew her as a good, reliable and industrious girl.—*Breckenridge News*.

On last Saturday night A. M. Crittenden living in the South part of the county, about four miles from Kirkmansville, hearing a noise in his crib, took his gun and went to see what it was about. He found a man in his crib helping himself to corn, and the fellow refusing to stop when asked, he fired upon him, which brought him to a halt. He then found that there were two of them, Berry Justice and Henry Bryant. Upon finding that there were two of them, Mr. Crittenden returned to the house to get his rifle, but on his return Bryant had taken leg bail, and he did not get him, but Justice he found so badly wounded that he could not get away. We learn that his wounds are severe though not serious. We will venture the assertion that if he does get well he will not trouble Al. Crittenden's crib again, in fact we believe Al's corn is safe from now on from all depredators.—*Muhlenberg Echo*.

Last Thursday, a man named Beal, who came here on a train from Bowling Green, left his four children at the depot and has not since been heard of. The two oldest of the children are girls, one about 13, named Lala, the other about 8 named Laura. The other two are boys aged respectively 7 and 5, the older one named Henry. The children state that their father on leaving told them to go to Mrs. J. M. Beal's, where they had been the day before, and stay till he should return on Sunday. They went to the Forest House and asked to be taken in. They were in the most pitiable condition and Mr. Bowl- ing took them in and fed them and our good citizens promptly came forward and took charge of them. Lala the oldest, was taken by Mr. J. M. McCutchen; the other girl, Laura by Mr. J. Neason; the boy, Henry by W. F. Browder, and the little kid was cared for by Mr. C. W. Courts, who placed him in charge of Mrs. Campbell. Beal is evidently a crank or a scoundrel who is willing to leave his children to starve. The children say their mother is dead and they came from a farm 10 miles from Bowling Green, and had started to South Union to join the Shakers.—*Herald Enterprise*.

The remains of William Neal, who was hanged at Grayson last Friday, were interred on the hill back of his father-in-law's residence, three miles from this place, this afternoon. There were no services, and only a few relatives to witness the last obsequies. He had but few sympathizers in these parts. In this connection I have a bit of history that has never before been made public, and as a farewell to the case I give it. There were three children killed, and three men did it. It took three years, three months, and three days to hang the last man charged with the crime. Three graves were dug in which to bury Craft. Three days were set to hang Neal, each on the 27th of the month. Three men were on the citizen's committee at Ashland to ferret out the perpetrators, and on the third day their work was consummated by James Heflin arresting Ellis, Neal and Craft. Three companies of soldiers were required to guard the prisoners to this place. Three persons were killed outright by the soldiers when they fired on the mob at Ashland. It took three steamboats to convey the prisoners to the Maysville jail. Three lawyers defended Neal and three Governors wrestled with the case. He leaves three children, and \$3 were expended in the transportation of his remains from Grayson here.—*Cattletown, Ky., Special to Cincinnati Enquirer*.

Miss Creek Summary. April 8th, 1885.

We are glad to see spring weather once more.

Van Bratcher and H. Franklin Allen have measles.

We had a general family fight in this neighborhood recently: a father and three sons being the combatants. Some of them are wearing mourning about the face and eyes. Whisky was at the bottom of it all. Touch not, taste not the unclean thing.

Our leading physician, Dr. L. T. Cox, who has been employed to attend Elvira Tooley, says she has no consumption but has laryngitis combined with other diseases. She has lost the power of speech and cannot be heard above a whisper, but has been improving since Dr. Cox has attended her.

Joshua Stevens, an old citizen of this vicinity, has lost the sight of one of his eyes.

Whippoorwill sings the little bird, and the little honey bees hum to find April bloom.

Good luck to the editor and success to the *HERALD* is the wish of ALTO.

The convicts who escaped from the guard house at Dawson last week are being picked up one by one. Jim Rainwater, after going about three days without food, gave himself up at Fairfield last week and was returned.

Torn to pieces with a cough? Wilder's Wild Cherry Tonic will mend you.

Vital Questions!!!

Ask the most eminent physician of any school, what is the best thing in the world for quieting and allaying all irritation of the nerves and curing all forms of nervous complaints, giving natural, childlike, refreshing sleep always?

And they will tell you unhesitatingly "Some form of Hops!!!"

CHAPTER I.

Ask any or all of the most eminent physicians:

"What is the best and only remedy that can be relied on to cure all diseases of the kidneys and urinary organs; such as Bright's disease, diabetes, retention of inability to retain urine, and all the diseases and ailments peculiar to Women?"

"And they will tell you explicitly and emphatically 'Hops!!'"

Ask the same physicians:

"What is the most reliable and sure cure for all liver diseases or dyspepsia; constipation, indigestion, biliousness, malaria, fever, ague, &c.," and they will tell you:

"Mandrake! or Dandelion!!!"

Hence, when these remedies are combined with Hop Bitters, such a compound and so mysterious curative power is developed, which is varied in its operations that no disease or ailment can possibly exist or resist its power, and it is harmless for the most frail woman, weakest invalid or smallest child to use.

CHAPTER II.

"Almost dead or nearly dying."

For years, and given up by physicians of Bright's and other kidney diseases, liver complaints, severe coughs, called consumption, have been cured. Women go nearly crazy!!!

From agony of neuralgia, nervousness, wakefulness, and various diseases peculiar to women.

People drawn out of shape from exerting undue physical and mental power, and chronic, or suffering from serofa.

Salt rheum, blood poisoning, dyspepsia, indigestion, and in fact almost all diseases.

Nature is heir to Hop Bitters, proof of which can be found in every neighborhood in the known world.

None genuine without a bunch of green Hops on the white label. Shun all the vile, poisonous stuff with Hop or Hops in their name.

Relief From Malarial Poison.

For six months past I have been affected with a very serious case of typhoid malarial, which I contracted on my orange grove in northwestern Florida. I tried several remedies, but everything failed me. Two weeks ago I purchased a bottle of Swift's Specific, which has proved a sure cure for this dreadful malady. I had almost given up hope of ever being well again, for I had tried so many remedies, all of which had failed to do any good. Would to God that all the afflicted people residing in the malarious counties of Georgia, Florida and Alabama would read this and try the S. S. S. instead of dosing themselves with quinine and mineral remedies. I feel it my duty to suffering humanity to write this certificate, for it may be the means of many of my old friends trying this great remedy as I have done. So strong is my faith in it that in every case where the directions are followed I will guarantee a sure cure or forfeit one hundred dollars.

CHAS. D. BARKER, Publisher, Editorial Room Temperance Advocate, Atlanta, Ga.

"It is a Wonderful Remedy."

For many years my blood was in a bad condition, manifesting its character by a serious breaking out on both my ankles, which caused me considerable suffering as well as great annoyance. Seeing the name of Rev. Jesse H. Campbell, of Columbus, Ga., attached to a certificate concerning a cure by Swift's Specific, I wrote to him about this remedy. His reply was that "it is a wonderful remedy." I tried it and found the action very much as described in the directions. I used at one dozen bottles, observing a steady and almost daily improvement from the start. I was entirely cured of this disagreeable and distressing disease. That has been nearly a year ago, and I find no signs of the disease returning, and am ready to testify with Rev. Mr. Campbell that Swift's Specific "is a wonderful remedy." H. M. R.

THE OLIVE CHILLED PLOW

FARMERS AND PLOWMEN,

There are TEN REASONS why you should use nothing but the OLIVE CHILLED PLOW:

- FIRST—They are the Original and Only Genuine Chilled Plow made.
- SECOND—They are adapted to all kinds of soil, and will do first-class work in Sod or Stubble.
- THIRD—The mouldboards are thoroughly Chilled, have no soft spots in them, will scour in any soil, and will not wear out in ten years plowing.
- FOURTH—Olive's Chilled metal will not corrode. The heaviest coat of rust that can accumulate on it will be entirely removed by a few minutes use, and the mouldboard will be bright and smooth as before.
- FIFTH—The "Olive" is a thoroughly center draft Plow, having a Sloping landside which does away with the pressure found on all Straight landside Plows. It runs lighter and has absolutely no side draft.
- SIXTH—The Olive Chilled Plow has hundreds of imitators. No manufacturer will try to imitate an inferior Plow.
- SEVENTH—For ease of management, adjustability and lightness of draft, it has no successful competitor.
- EIGHTH—The "Olive" has a record unparalleled in the history of Plow making from 1500 in 1870 to over 100,000 in 1885.
- NINTH—Your neighbor will tell you to buy the "Olive" and take no other. It will break hard dry ground when no other plow will.
- TENTH—There is over 800,000 Olive Chilled Plows in actual use and there, are three times as many being sold at the present time as any other Plow manufactured. It is warranted to do Better work and more of it with the same amount of draft than any other Plow in use. Try it and be convinced.

A rumor was circulating around last week that Mr. John D. Bell of the Point had lost his house by fire. We saw Mr. Bell in town Monday and learned that it was a false alarm.

Mr. Joseph Gentry, living near the mouth of Brown's Creek, has contributed to our Cabinet of Curiosities an Indian pipe. The pipe is made of sandstone and is perfect in shape.

More than 800 barrels of flour have been imported to and sold in this town in the last eight months. Would it not be cheaper to produce our own wheat and a little less tobacco.

Reports from various parts of the county are more favorable to the wheat crop than any heretofore reported. It is now thought that if the season is favorable from now until harvesting time, a considerable quantity will be raised.

Franklin Mills Company, 38 Clark Street Chicago Ill., is another advertising fraud. They advertised last August to be paid at once and though repeatedly called upon, they failed to respond. They pretend to make a superior quality of flour, but of course their word is unreliable. Better let them alone or you will get lit.

The residence of Mr. B. Patterson post-master at Short Creek, Grayson county Ky., burned last Wednesday night. It was a new house and uninsured. Mr. Patterson is a poor man and lost all he had. It is strange that men will neglect insurance. With the facilities for and cheapness of Fire Insurance, it seems incredible that a man with ordinary business sense will neglect to insure.

The members of the Ohio County Fair Company held a meeting last Saturday and appointed a committee who are empowered to sell their present Fair Grounds with a view to selecting a new location more suitable and convenient. The committee have a card in this issue in regard to the sale. Whether a sale is made or not the Company will hold a Fair at the usual time this fall.

Mr. Cicero Bartlett, a young man of Bartlett's precinct, happened to a serious accident last Wednesday. He had an ax in hand and was walking along when he stumbled and fell, his right knee striking the edge of the ax, which cut it off very severely. He was hauled to the home of Mr. Joel Elmore, near by and Dr. Lindley was dispatched for. He was suffering very intensely when last heard from.

We send off a load of tobacco and bring back a load of hay, corn or flour. We have a soil naturally adapted to grass, and a good corn and wheat soil. Had we not best produce our own grass, corn and wheat instead of so much tobacco. Think of it, gentlemen, and figure a little and we think you will drop tobacco and produce something that you need to sustain life, and which you can produce more profitably than tobacco.

Mr. Heber Matthews, who has been a very important man about the Standard office for the past six or seven months, resigned that position last week, and left on Sunday morning's express for Hartford to accept the foremanship of the HERALD. Heber is quite a valuable article to have about a printing establishment, possessing sober habits, moral ideas and a varied talent in regulating type in order to make it show up properly on white paper. We congratulate friend Barrett in securing the services of so useful a man to manage the affairs of his office. —*Leitchfield Suburban*.

An Excursion Party.

The steamer Rosa Belle gave an excursion last Sunday, and it was the pleasure of several Hartford people to be aboard. Quite a bevy of gay and vivacious young ladies graced the party with their bright presence and contributed great enjoyment to the occasion. Their gay laughter and merry words were the light and life of the trip, and the enjoyment they afforded was so delightful, so pleasurable, and only that which could emanate from the pure heart of young womanhood. Full of the life of refined girlhood, their every word and action seemed to be a portrayal of the guileless nature that bloomed beneath their winsome faces. The day was somewhat cool, but not unpleasant, and springtime seemed only lingering for a chance to cover all nature with flowers. The leafless trees swayed their long branches and the sun softly kissed their brown and withered features, as if anxious by this gentle caress to kiss back their life and bloom. An elegant dinner was served upon the boat and partaken of with relish. The officers of the boat were very courteous and kind to the voyagers and gave every attention to promote the pleasure of all. It is the intention of the managers to give another excursion some Saturday within the next month, when balmy spring throws her drapery of flowers and green leaves over the landscape, and circumstances will be more auspicious. Several gentlemen from our city were aboard, and the following are the young ladies, accompanied by Mr. and Mrs. F. E. Kimbley, who were so gracious as to contribute their company to the occasion: Misses Lilla and Adah Baird, Josie Duke, Lizzie Gregory, Bertha Gibson, Effie Hill, Tula Pendleton and Mary Nail.

We will receive bids for the property just as it is, and also for the land and outside fence only. We reserve the right to reject any and all bids. Death of James Burch.

Died, at his home in Breckinridge county near the Ohio county line at 6:40 o'clock A. M., Monday, April 6th 1885, of pneumonia, James F. Burch, in the 65 year of his age.

Mr. Burch was born on what is now known as the Wm. Tuttle farm near his home, December 7, 1820, and was a son of Benjamin Burch, a soldier of the revolutionary war, who served seven years during the struggles of the colonies for independence. In the year 1810 he moved from Prince George's county Maryland, to Ohio county Kentucky and settled on a farm near Barrett's Ferry and from this farm to the Wm. Tuttle farm where his son James was born. His remains and those of his wife were interred in the George Matthews graveyard in Breckinridge county.

January 30th, 1839, James Burch married Miss Nancy H. Godsey, daughter of Samuel and Betsey Godsey, early settlers of Ohio county.

Mr. Burch had been a member of the Baptist church for many years at Pleasant Grove, Ohio county, and at the time of his death was one of the deacons in the church at that place. He leaves a wife and seven living children, four sons and three daughters, all married. His sons are Taylor, Noble, Henry and Remus; the daughters are Mrs. Chloe Shreve, wife of Thomas H. Shreve, Mrs. Malvina A. Overton, wife of Samuel W. Overton, and Mrs. Amanda A. Pate, wife of Elias T. Pate.

At 10 o'clock, Tuesday morning, his funeral service was held at his home by Rev. B. F. Jenkins, from the text "Know ye not that there is a prince and a great man fallen this day in Israel," II Samuel III chapter 26 verse. After service his remains were taken to the Godsey graveyard on the farm now owned by Elias Walker in Breckinridge county and laid by the side of his three little sons.

Mr. Burch was well respected by all who knew him and the community in which he resided had appointed him to represent them in many instances, and he was one of the Justices of the Peace for what is now known as the cut-off in Breckinridge county. He was a man with but little to say, of very quiet manners, and in counsel as a member on committee, expressed his views in a few words and to the point of discussion. — FORBES.

Obituary.

Died, near Camp Ford, Grayson county, Monday April 6th 1885, of cerebro spinal meningitis after a sickness of five days, Posey Walter, son of Clark and Josephine Bratcher, aged about four years. At 10 o'clock Wednesday morning his remains were laid with other relatives in the grave yard of his great-grand father James W. Matthews on the farm now owned by Lee Grant near Pattieville.

The Saviour laid him in his arms. With his head upon his breast, And now he's with the Saviour And quiet and at rest. — FORBES.

Destructive Fire.

On last Saturday evening the dwelling and contents of James Petty, living near Barrett's Ferry, were consumed by fire; also the furniture and plunder of his father, Mr. Pinkney Petty. Mr. Petty and his father were absent from home and nothing was saved except two beds, three chairs and a stand-table, by his wife. His meat-house was also burned, containing all his meat, gearing &c. The loss falls very heavy on Mr. Petty as he has lost nearly everything he possessed. The citizens of his neighborhood should help him out in this his time of need.

County Convention.

By order of the Republican Executive Committee of Ohio county, a convention will be held at Hartford, Ky., Monday, May 4th, 1885, to nominate a candidate for the Lower House, next General Assembly, and to select delegates to the Republican Senatorial Convention to be held at Rockport, Ky., Saturday, June 20th, 1885. Berkshires.—Mr. John P. Foster, of Hartford Ky., reports the following sales of Berkshires:

To J. W. Hyde, Tenn., 1 pair; to H. B. Taylor, Ohio, county, 1 sow pig; to W. G. Bennett, Ohio county; 1 pair; to Alex. Hoover, McLean county, 1 pair; to John Thomas, Ohio county, 1 boar pig; to Joseph Thomason, Ohio, county 1 boar pig.

Mr. Hyde, on receipt of his, wrote that they just come up to his idea of what Berkshires should be in every particular, and the best he had ever bought.

Paul Bunyan is the name of an infant son of Mr. and Mrs. W. A. Gordon, of Sutton, who is quite a remarkable chap. He is not quite seven months old, weighs twenty pounds, can sit alone, say papa and mamma and is noted for his great strength. He lifted a six pound flat iron up the other day with one hand and put it in his lap. His mamma then gave him an eight pound iron and he lifted that up with ease. She then gave him both irons, one in each hand and he lifted them both up off the floor at the same time. Who can beat this baby?

NEW SPRING GOODS.

Just received a large line of general merchandise. Call and see us. HOCKER & Co. Beaver Dam.

The Rosa Belle arrived from Livermore yesterday evening.

FACTS THAT PARALYZE AND WORDS THAT COMFORT!

The Man of Light Pocket-book, In these Times of Depression and Scarcity of Money. TWENTY THOUSAND DOLLARS WORTH OF

DRY GOODS!

CLOTHING, HATS AND SHOES, TO BE SOLD AT ANDERSON'S BAZAAR!

CHEAPER THAN GOODS HAVE EVER BEFORE BEEN SOLD IN THIS COUNTY.

Owing to the cheap rates secured through the Hartford Packet Company, our freights have been so trifling as to enable us to sell goods at Cincinnati prices. Nothing like it has ever been known or heard of. You thought our prices low last season. You should see them now. Every line is full of bargains that cannot be replaced. Especially is this the case in clothing, and parties needing anything in this line should not delay, but come before the best bargains and choicest styles have been selected. Our freights on clothing did not amount to one cent on the dollar. Our expenses are much less than they are in the cities. Our goods have been manufactured especially for us in the cheapest market on the continent. There is no reason why we should not sell goods cheaper than city merchants. We propose to give our customers the benefit of these advantages, to sell more clothing than has ever been sold in Hartford during any previous season and at lower prices.

An Examination of our Goods and Prices Will Convince You that we Mean What we Say!

IN MILLINERY

The styles have never been so handsome. Our customers will be pleased to know that this department will again be in charge of MISS LOU. CROITZ, of Cincinnati. Notwithstanding the backwardness of the season, our Millinery sales have already been quite large—larger than that of any former season.

Next week our readers will hear more from this immense stock and wonderful revolution in prices.

"The poet's grave" is the title of

what's the matter with the average

be, nerves all upset, worried with the
children, fretted over little things, a

troubles peculiar to their sex. 134

GENERAL GRANT.

Is the Old Hero Dying Because of
Medical Intolerance.

The American Homoeopathist has an
article on the treatment of General
Grant by the Allopaths, in which it
says:

"General Washington was murdered
by his medical attendants; but at least
they were heroically—too heroically en-
deavoring to extinguish the disease.
Their brutality was of the active sort,
and in purpose commendable, though
disastrous in result. General Garfield
was maltreated for months under an er-
ror of diagnosis, and at last escaped be-
yond the reach of his eminent torturers.
Here, also, there was much medical
heroism and activity displayed, albeit
unsubscribed. Other illustrious patients
have suffered from encephalitis in the
profession; but General Grant seems re-
served as a shining example of cold-
blooded expectancy. To him the little
group of encephalitis have nothing to
offer but a diagnosis. For him they
propose no relief but in the grave.
Ignoring the only source of therapeutic
salvation, they gather round his bed-
side to observe his unaided struggle.
The fact has gone forth that nothing
can be done; and nothing will be per-
mitted to be done. Those who question
such a decision are quacks and cranks;
but who ought not to be proud of such
a designation from such a source?"

Scholarly, refined, cultured, earnest
gentlemen as they are, of what avail
are all these good qualities in the pres-
ence of such therapeutic bankruptcy?
On the contrary, while so-called scientific
medicine is to the fore, we may the
daily papers announce in startling
headlines, 'A tad day for General
Grant—Seven doctors in consultation.'
Yes, the hero of Appomattox is dy-
ing!

He who knew no fear in war, knows
no fear in suffering. His quiet fortitude
wins universal admiration.

President Lincoln, in visiting a hospi-
tal during the late war, noticed a poor
Confederate boy, mortally wounded.
With his native tenderness he put his
arms around his neck in sympathy.

The sight melted the hospital to tears.
The heart of the American people in
like manner bleeds for Grant, the silent
sufferer. It would have him get well,
by any effective means.

His physicians say he can not recov-
er. They fill him with anodynes but
despite their favorable bulletins he is
daily growing worse.

A specialist who has won reputation
in the treatment of cancer visits his
bedside. The opposition he encounters
from the attending physicians brings
painfully to mind the story of the dog
in the manger.

And General Grant, perhaps, must die
because of this intolerance. Is it possi-
ble that there is no hope of cure out-
side of the medical profession?

Preposterous!
For years medical men insisted that
certain fevers were incurable, but
Chinquin proved the contrary. For
centuries they have protested that cer-
tain renal disorders were incurable and
yet a special preparation has cured and
permanently cured the worst cases.

Why may it not be possible in like
manner to cure a case of cancer? B. F.
Larabee, of Boston, was doomed to die
by many eminent Boston physi-
cians. J. B. Henion, M. D., of Roches-
ter, N. Y., was given up by the best
doctors of all schools. Elder J. S. Pres-
cott, of Cleveland, Ohio, was gravely in-
formed by them that he could not live,
and yet these men and thousands like
them have been cured and cured per-
manently, of serious kidney disorders,
by a remedy not officially known to the
code.

What has been done may be done
again.
General Anson Stager died of Bright's
disease in Chicago last week. "Joe"
Goss, the Boston pugilist died of it.
Hundreds of thousands of people perish
of it every year, while in their doctor's
hands. The cause of death may be
called blood poisoning, paralysis, heart
disease, convulsions, apoplexy, pneu-
monia, or some other common ailment,
but the real difficulty is in the kidneys.

Physicians know it but they conceal the
fact from their patients, realizing their
inability to cure by any "authorized"
means. The remedy that cured Larabee
and Henion and Prescott (i.e. Warner's
safe cure) is a special, indepen-
dent discovery. Its record entitles it
to recognition, and it gets it from in-
telligent people. Its manufacturers
have an unassailable reputation and are
entitled to as great consideration as any
school of physicians.

Professor R. A. Gunn, M. D., Dean
of the United States Medical College of
New York City, rises above professional
altruism and on its personally
proved merits alone gives it several
pages of the warmest commendation in
his published works—the only instance
on record of a high professional endorse-
ment of such a preparation.

The unprejudiced people do not want
General Grant to die. If there is in all
the world a remedy or a man able to
cure his cancer, give them a chance.

Will they do it?
No.
Why?

Is it not too often the case that many
excellent physicians who are greatly
devoted to the code, would prefer that
their patients should die rather than
that they should recover health by the
use of any remedy not recognized under
their code?

Parents and Children.

Prof. Felix Adler, in the course of a
lecture said the gift of children tended
to moral elevation. The man who de-
sired to see his children grow up better
than himself would not fail to improve
his own life and character, so as to set
them a good example. If a parent
sought to curb the angry passions of a
child, that parent would more carefully
guard against any exhibition of temper,
such as would set an evil example. If
he sought to have the children avoid
slander, no encouragement at the table
or in the parlor would be given to those
who meet only to rend their neighbor's
character. Avoided would be the
feasts of those moral cannibals who feed
upon the reputation of others.

The moral nature and individuality
of children, Professor Adler continued,
should be carefully studied and respec-
ted. They are, it is true, born of our
bone and flesh of our flesh, but we are
not the channels through which the
river of life is transmitted to them. Some
parents make a point of trying to mold
their children into reproductions of
themselves. But every child has a
right to its own individuality. For
instance, if a boy shows a talent for art
it is a grave question whether it be
wise for that boy's father to say: "Oh,
I don't want my boy to be a painter, I
mean him to be a lawyer." Or, again,
a youth shows an intense passion for
study, but a friend of the father has an
office in his counting house, and so the
instincts of genius are sacrificed to the
dollar. Thus the individuality of
that life is destroyed and the particu-
lar message with which it was intrus-
ted to deliver to the world is lost.

In conclusion the speaker dwelt upon
the reverence and love due from chil-
dren to their parents. As an instance of
filial devotion he cited the case of the
young freeman who lost his life at Col-
lege Place, New York. As he fell from
the ladder to the ice-bound pavements
below he was heard to exclaim, "Oh my
poor mother!" His one thought in
that dreadful moment was for his
mother. How many men there were
whose heads were gray and the tender-
est recollection in whose career was
the remembrance of the father who
had guided and trained their steps in
their earlier years, and the mother
whose tender care had never been
equalled by any one else on earth.

Some Ways of Making Love.

Lovers seldom make love in the
same way. Barkis insinuated. Vivien
charmed Merlin. Alexander made a
bouffe for Thais. Bassoio soft-soldiered
Portia with a leaden casket. The
garrulous female in the Arabian Nights
told her husband stories. Hippomenes
had a close race for Atlanta, but he
played the apple game on her. In the
Polynesian Islands they win their
hearts by beating their heads with a
mallet. Harry the Eighth and Blue-
beard were off with the head of the
old love before they were on the new.
Newton poked down the tobacco
in his pipe with his sweetheart's finger
—a warm token of affection. Tristram
did it mostly with the harp. Bothwell
was inclined to Mary, and locked her
up in his castle. Cobett's wife caught
him by the grace with which she used
her washbowl. Romilly, the famous
lawyer, killed himself because his wife
died, while a great many others kill
themselves because they will not die.
Nicholas of Russia wanted to "pop" at
the dinner table, but did not like to be
caught at it, so he embedded a ring in
a lump of bread and handed it to her.

Liquor Business Defined.

It is a business which is opposed by
every true citizen in the country.

It is a business which every merchant
and business man hates and detests.

It is a business which is the standing
dread of every mother.

It is a business which is the horror of
every wife.

It is a business which makes 90 per
cent. of the business of the criminal
courts.

It is a business which makes 90 per
cent. of the pauperism for which the
tax-payer has to pay.

It is a business which keeps employed
an army of policemen in the cities.

It is a business which puts out the
fire on the hearth, and condemns wives
and children to hunger, cold and rags.

It is a business which fosters vice for
profit, and educates in wickedness for
gain.

Drunkenness comprises all other
vices. It is the dictionary of vices.
Drunkenness means peccation, theft,
robbery, arson, forgery and murder—for
it leads to all of these crimes.
